Title: Back driving automatic brake system & Automatic braking system for equipping in all vehicles, airplanes, ships, etc.

Board of Patent Appeals and Interference  
US Patent and Trademark Office  
PO Box 1450  
Alexandria, Virginia 22313-1450

Dear Mr. Director,

I am referring to a letter received from Mr. Talis Dzenitis, Acting Director of US Patent and Trademark Office proposing me to write your office concerning my patent application being abandoned.

You are requested to examine the cause of delay as below:

1. Office of Examiner's Action Summary was mailed on December 30, 2005.
2. Applicant's reply was sent on 01/16/2006 reaching at his office on January 23, 2006.
3. Office of Examiner's Advisory Action was mailed on February 14, 2006 in need of "amendment or affidavit".
4. Applicant's reply with "affidavit" was sent on February 17, 2006 timely.
5. Office of Examiner's Notice of Abandonment was mailed on August 07, 2006 that application became abandoned.

Mr. Examiner took over five months for a reply causing too much delayed that application is abandoned caused by him, it went beyond applicant's control.

The applicant hereby requests that Board of Patent Appeals and Interference interferes in the matter to withdraw the holding of abandonment of the application for no fee. As the invention has capability to save American lives to avert traffic accidents.

Respectfully,

Henri Duong
